## Bellbrae Primary School Community Update

From the 2019–20 State Budget, the Victorian Government allocated \$9.1 million to Bellbrae Primary School for upgrades and modernisation works. In 2020, the school received an additional \$2.38 million to upgrade water and sewerage site services which is being delivered in partnership with the Victorian School Building Authority (VSBA) and Barwon Water.

### Upgrades to water and sewerage services

Barwon Water will be conducting several investigations in early 2021 including service locations, flora and fauna assessments, geotechnical and land surveys.

Existing onsite water and sewerage services at the school are outdated. The new connection will ensure reliable water and sewerage services for the school.

### Upgrades Bellbrae Primary School

The VSBA are modernising Bellbrae Primary with a competition-grade gym, open learning spaces and new science, technology, engineering and maths facilities. Improvements will also be made to the school oval.
